Good Morning Sarah.

In relation to renewing the existing PSPO. In my role as deputy commander for the Harborough District; I lend my support to having a PSPO continue. I can say from experience when policing the city a PSPO can be a useful tool and deterrent to street drinkers and Adhoc parties in public spaces. The town beat officer for Harborough, knowing a PSPO has been in effect has recently used this power to take drink from a male who has a history of causing problems in the community. Having visible signage around the town has helped act as a deterrent in public places allowing the public to enjoy the space with family. There have only been a couple of recorded incidents in the last few months where police have had to become involved with street related drinking but they have been able to do so and resolve the issue because a PSPO was in place.

Having consulted with my colleagues across the District, we are happy that the current areas covered are proportionate to the levels of ASB and there is no requirement to extend the areas further.

For your consideration.

SGT 1042 Kev Manship  
Eastern Counties Deputy Commander  
Market Harborough  
Ext 3812
