

# Unemployment Bulletin

## August 2010

### Introduction

*The population figures used to calculate residence-based proportions (rates) have changed from working age (16-59f/64m) to aged 16-64 for both males and females. This change affects rates for July 2010 so rates are not currently comparable to previous dates.*

The Unemployment Bulletin provides a monthly update of the latest unemployment and benefit data for Leicester and Leicestershire. The data is sourced from Nomis ([www.nomisweb.co.uk](http://www.nomisweb.co.uk)) which contains data from the Office for National Statistics, the Department of Work and Pensions and other official sources. Some figures have been calculated by Leicestershire County Council and where this is the case it is stated in the source.

There are a number of ways of measuring unemployment and this bulletin mainly focuses on the Claimant Count which is a measure of the number or proportion of people receiving Job Seekers Allowance (JSA) and National Insurance Credits at Jobcentre Plus local offices. This is not an official measure of unemployment but it is the only indicative statistic available for areas smaller than Local Authorities.

Official estimates of unemployment in the UK are obtained from the Labour Force Survey (LFS) using the internationally agreed International Labour Organisation (ILO) definition. The ILO definition is based on the number of people without jobs who are looking for work and are available to start work (and includes people whether or not they are eligible to receive unemployment related benefits). The LFS unemployment figures which are subject to sampling differences are not reliable at small areas. The Claimant Count is released on a monthly basis and is available down to ward level, so is used as a more current indicator of unemployment levels. Using the two sources together provides a more comprehensive picture of the labour market.

People who are not claimants can appear among the unemployed if they are not entitled to unemployment related benefits. Similarly, claimants of unemployment related benefits may not appear in the measure of unemployment if they stated that they are not seeking or are not available to start work.

**Table 1: Resident-Based Claimant Count (JSA) Proportions: August 2010**

Area	Claimant Count Proportion (working age)			Total Claimant Count	Change since last month	Change since last year	Previous months Proportion (change)	Previous years Proportion (change)
	Total	Male	Female					
Leicester Shire	3.4%	4.6%	2.1%	20,965	51	-4,292	3.4%(0.0)	4.3%(-0.9)
Leicestershire County	2.2%	3.0%	1.5%	9,274	46	-2,950	2.2%(0.0)	3.1%(-0.9)
Leicester City	5.7%	7.9%	3.5%	11,691	5	-1,342	5.7%(0.0)	6.8%(-1.1)
Rutland	1.5%	1.7%	1.1%	340	12	-57	1.4%(0.1)	1.8%(-0.3)
East Midlands	3.4%	4.7%	2.0%	96,996	246	-15,645	3.4%(0.0)	4.1%(-0.7)
UK	3.6%	5.1%	2.2%	1,456,023	14,988	-146,166	3.6%(0.0)	4.2%(-0.6)

Source: Office for National Statistics (Nomis)

Note: Leicester Shire comprises the areas of Leicestershire County and Leicester City only.

National Statistics will release the September 2010 unemployment figures on Wednesday 13th October 2010.

Archived Unemployment Bulletins and other reports produced by Leicestershire County Council are available on the Leicestershire Statistics and Research Online website, [www.lsr-online.org](http://www.lsr-online.org)

**Table 2: Resident-Based Claimant Count (JSA) Proportions: August 2010.**

Districts	Claimant Count Proportion (working age)	Total Claimant Count	Total last month	Total last year	Previous months Proportion (change)	Previous years Proportion (change)
Oadby & Wigston	2.5%	938	970	1,167	2.6%(-0.1)	3.4%(-0.9)

### Claimant Count (JSA) by Ethnicity

JSA benefit data have been published by the Office for National Statistics (ONS) for many years as a key labour market indicator. In November 2006 ONS published JSA claimant data by ethnicity for the first time. The data is available for the detailed ethnic groups down to Local Authority level and is backdated to April 2005.

JSA claimant data by ethnicity has been included in Tables 5, 6, and 7 of this bulletin. The JSA data by ethnicity used in these table is a month in arrears of the other Claimant Count data in the other tables in the bulletin.

For more information, please see; [www.nomisweb.co.uk/articles/news/files/DWP\\_Ethnicity\\_JSA.pdf](http://www.nomisweb.co.uk/articles/news/files/DWP_Ethnicity_JSA.pdf)

### Unemployment: International Labour Organisation (ILO) Definition

Official estimates of unemployment in the UK are obtained from the Labour Force Survey (LFS) using the internationally agreed International Labour Organisation (ILO) definition. The ILO definition is based on the number of people without jobs who are looking for and available to start work. The LFS unemployment figures which are subject to sampling differences are not available for smaller areas. The Claimant Count is released on a monthly basis and is available down to ward level, so is used as a more current indicator of unemployment levels.

**Table 8: Unemployment Rates: ILO Definition; January 2009 - December 2009**

Area	January 2009 - December 2009		January 2008 - December 2008	
	ILO Unemployment Rate (working age)	Total Persons ILO Unemployed	ILO Unemployment Rate (working age)	Total Persons ILO Unemployed
United Kingdom	7.8%	2,367,700	5.8%	1,750,600
East Midlands	7.4%	165,700	5.9%	132,400
Leicester Shire	7.3%	35,000	7.2%	34,600
Leicester City	11.0%	15,400	13.1%	18,100
Leicestershire County	5.8%	19,600	4.8%	16,500

### Other Department for Work and Pensions Benefits Statistics

Job Seekers Allowance is one of a number of types of benefit which is related to worklessness, and recipients of this benefit constitute the most visible group of people who are out of work. However, many people have been diverted away from Job Seekers Allowance on to other benefits, the largest number being onto Incapacity Benefit. Nationally, the number of people claiming Incapacity Benefit is over three times the number of people out of work and claiming JSA.

The government recently published a Green Paper on welfare reform in which it is argued that to meet the goal of reaching a UK employment rate of 80%, more people on inactive benefits must be moved into work, particularly those who have been on benefits for a long time.

One method of classifying benefit claimants is by breaking them down into statistical groups. This presents the main reason why an individual is claiming benefit. Benefits are arranged hierarchically and claimants are assigned to the top most benefit which they receive. In this way each claimant only appears once, even though they may claim more than one benefit - the total number of working-age people who are claiming one or more key benefits is often used as a proxy for worklessness.

These figures are provided by the Department for Work and Pensions and are updated quarterly.

**Table 9: Working-age people claiming one or more key DWP benefit by duration; February 2010**

Area	Number	All benefits			Duration (proportion of all claimants)				
		Rate	Previous year number	Previous year rate	<6mths	6mths - 1yr	1yr - 2yrs	2yrs - 5yrs	+5yrs
Blaby	5,500	9.2	5,360	9.4%	24%	11%	11%	15%	39%
Charnwood	11,100	9.9	10,850	10.1%	24%	11%	12%	16%	38%
Harborough	3,960	7.6	3,970	8.0%	25%	12%	12%	15%	36%
Hinckley &	7,250	10.7	7,150	11.0%	25%	11%	13%	16%	35%
Melton	2,870	9.3	2,850	9.5%	27%	11%	11%	14%	37%

February 2010

**Table 10: Benefit Claimants by Statistical Group - Main reason for claiming benefit; February 2010**

Statistical group	East Midlands		Leicester City		Leicestershire County	
	Number	Rate	Number	Rate	Number	Rate
Employment and Support Allowance & Incapacity Benefits	16,320	7.9%	17,020	4.1%	180,650	6.3%
Job Seeker	12,700	6.2%	10,940	2.6%	110,520	3.8%
Lone Parent	5,540	2.7%	4,000	1.0%	45,350	1.6%
Carer	3,130	1.5%	3,650	0.9%	32,590	1.1%
Disabled	2,170	1.1%	3,610	0.9%	29,830	1.0%
Others on income related benefit	1,430	0.7%	1,450	0.3%	12,940	0.4%
Bereaved	420	0.2%	980	0.2%	6,210	0.2%
Total	41,710	20.2%	41,650	10.0%	418,080	14.5%

Source: Department of Work and Pension (Nomis)

Note: Benefits are arranged hierarchically and claimants are assigned to the top most benefit they receive. Each claimant appears once only, even though some claim more than one benefit, permitting the estimation of the total number of people claiming one or more benefits. The Statistical Group hierarchy is a) Jobseeker b) ESA & Incapacity benefits c) Lone parents d) Carers e) Other income-related benefits f) Disabled g) Bereaved h) Housing Benefit i) receiving State Pension only. Thus a person who is a lone parent and receives Incapacity Benefit would be classified as receiving incapacity benefits. This is only one of the possible ways in which claimants could be classified and alternative classifications are possible.

For more information about DWP statistics and research [www.dwp.gov.uk/asd/data\\_guide.asp](http://www.dwp.gov.uk/asd/data_guide.asp)

# Definitions

**Claimant Count** - the count of claimants of unemployment related benefits is based on the administrative records of people claiming these benefits. Since October 1996 this has been the number of people claiming Job Seekers Allowance (JSA). The publication of claimant count figures is normally five weeks after the date to which they refer. The claimant count is accurate down to very small geographic areas and is unaffected by sampling variability since it is a 100% count. This means it can be used as an indicator of those without work down to small areas.

**Resident-based Claimant Count Proportions** - express the number of claimants resident in an area as a percentage of the working age population resident in that area. Claimant count rates can also be expressed as a proportion of the workforce jobs in an area, however in smaller areas using workforce job-based rates can cause distortions in the rates caused by commuting patterns. Using resident-based proportions avoids this distortion.

**Unemployment** (LFS ILO definition) - The definition of unemployment is internationally agreed and recommended by the International Labour Organisation (ILO) - an agency of the United Nations. Many countries use this definition. By this definition unemployed people are:

- without a job, want a job, have actively sought work in the last 4 weeks and are available to start work in the next 2 weeks, or
- out of work, have found a job and are waiting to start it in the next 2 weeks

**Unemployment Rate** (LFS ILO definition) - expresses the number of unemployed people resident in an area as a percentage of the economically active working age population resident in that area.

**Labour Force Survey** - The Labour Force Survey is a random sample survey which is carried out throughout the UK. It is conducted every three months using around 53,000 households. The survey collects information about the personal circumstances and work of everyone living in these households. The Office for National Statistics (ONS) uses the Labour Force Survey as its source for unemployment data. Unemployment is measured through questions asked in the survey and not by interviewing everybody in the country. Answers are then weighted to represent everyone. As with any sample survey there is sampling variability and this is high for areas below regional level. Therefore, the figures are not reliable for small areas. Each month the ONS releases statistics on the number of people who are unemployed in the United Kingdom for the latest available 3-month rolling period.

**Economically Active** - people aged 16 or over who are either in employment or are unemployed (LFS ILO definition)

**Economically Inactive** - people aged 16 or over who are neither in employment nor unemployed (LFS ILO definition) - e.g. they do not have a job and do not want a job. This group includes, for example, those who are looking after the family and/or home or retired.

**Working Age Population** - Working age is defined as 16-64 for males and females. The working age population figures are derived from mid-year 2006 population estimates. This

**Benefit Claimants Statistical Group** - Benefits are arranged hierarchically and claimants are assigned to the top most benefit they receive. Each claimant appears once only, even though some claim more than one benefit, permitting the estimation of the total number of people claiming one or more benefits. The Statistical Group hierarchy is a) Jobseeker b) Incapacity benefits c) Lone parents d) Carers e) Other income-related benefits f) Disabled g) Bereaved h) Housing Benefit i) receiving State Pension only. Thus a person who is a lone parent and receives Incapacity Benefit would be classified as receiving incapacity benefits. The total number of working-age people who are claiming one or more key benefits is often used as a proxy for worklessness. This is only one of the possible ways in which claimants could be classified and alternative classifications are possible.

For further information on unemployment statistics please refer to the document entitled 'How exactly is unemployment measured?' which is produced by the Office for National Statistics:
