Dear Mr Haigh

I write on behalf of Kibworth Rugby Club and Harborough Town Juniors Football Club. It would seem that both clubs are in a similar predicament.

We are currently enjoying significant growth in our respective Youth Groups. The Rugby Club has some 300 members aged 7 to 16 and the Football Club has 400 members. This is not without it's problems and is placing an enormous strain on the current pitch and training areas.

The Clubs recently spoke to John Spiers to discuss the availability of additional land at the Northampton Road site. While there is the area between the Rugby Club and the Leisure Centre, it would seem that the land to the most easterly side would provide the most scope for further discussion.

We have therefore put together a proposed ground plan as to how our present "over-crowding" might be alleviated. We would very much like the Council to give this proposal serious consideration to help out two expanding Clubs, which provide a growing town with access for hundreds of children to play competitive sport in a friendly and professionally organised environment, run by two very hard working Committees.

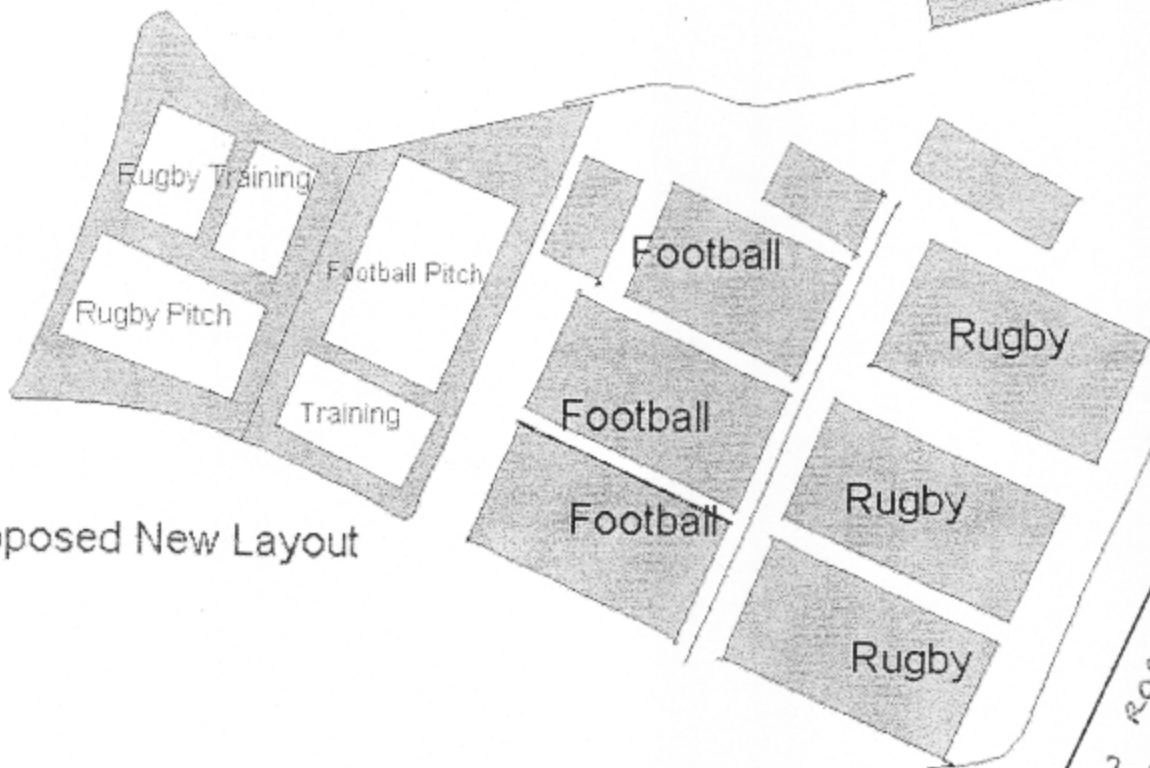

I look forward to hearing from you to discuss this further.

Yours sincerely

Simon Medwell
