

HARBOROUGH DISTRICT COUNCIL

INTERNAL AUDIT UPDATE

MARCH 2017

Date: 8th March 2017

Introduction

- 1.1 The Welland Internal Audit Consortium provides the internal audit service for Harborough District Council and has been commissioned to provide 235 audit days to deliver the 2016/17 Annual Audit Plan and undertake other work commissioned by the Council.
- 1.2 The Public Sector Internal Audit Standards (the Standards) require the Governance and Audit Committee to scrutinise the performance of the Internal Audit Team and to satisfy itself that it is receiving appropriate assurance about the controls put in place by management to address identified risks to the Council. This report aims to provide the committee with details on progress made in delivering planned work, the key findings of audit assignments completed since the last committee meeting, updates on the implementation of actions arising from audit reports and an overview of the performance of the Consortium.

Performance

2.1 Delivery of the Audit Plan for 2016/17

The Welland Internal Audit Consortium is currently under the management of LGSS (Local Government Shared Services). The Welland Board has set LGSS the objective of delivering at least 90% of the Internal Audit plans for 2016/17 to draft report stage by the end of March 2017.

At the date of writing, seven assignments have been finalised, two are at draft report stage, two have been postponed to 2017/18 at management's request and the remainder are in progress. In total, approximately 75% of the current year audit plan has been delivered to at least draft report stage.

Progress on individual assignments is shown in **Table 1**.

2.2 Delivery within budget

Internal Audit is on target to deliver the audit plan within the 235 days budget. Any overruns on individual assignments are managed within the overall budget.

2.3 Client satisfaction

So far this year, customer satisfaction questionnaires have been returned for four assignments and all aspects of the audits were rated 'satisfactory' or better. A summary of the responses is provided in **table 2**.

2.4 Productivity

As at the latest possible date for reporting purposes, current members of the audit team have been delivering 96% productivity against the target of 90%.

2.5 **Outstanding audit recommendations**

Since the last Governance and Audit Committee meeting, five actions arising from Internal Audit reports has been implemented.

At the date of reporting, there are 22 agreed management actions which are due but yet to be confirmed as implemented.

An analysis of the implementation of actions is provided in **Table 3**. Full details of all high and medium priority recommendations overdue for more than three months is provided in **Appendix B**.

2.6 **Emerging issues**

Copies of all Internal Audit reports are provided to the Chairman of the Governance and Audit Committee when finalised and presented to the next available committee meeting.

Since the last Governance and Audit Committee meeting, three Internal Audit reports have been finalised and a further consultancy report has been finalised. In addition, the Internal Auditors for Hinckley and Bosworth Borough Council, PwC, have published their 2016/17 report in respect of the Leicestershire Revenues and Benefits Partnership. A full copy of all audit reports is provided in **Appendix C**. No significant weaknesses in the control environment have been identified by Internal Audit. PwC issued a high risk rating in respect of revenues and benefits due to weaknesses in controls over BACS payments and a lack of recovery of council tax overpayments since August 2015.

2.7 **Amendments to the Audit Plan**

Approval was given at the last meeting to amend the audit plan to include a review of community grants using the 10 days originally included as a contingency.

Two further amendments have been proposed by management to postpone until 2017/18 the Leisure Options Project review and audit of Business Continuity and IT Disaster Recovery. This change is proposed to coincide with the Council's project and process development timetables. The days will be set aside for consultancy support in March 2017.

Notes

At the completion of each assignment the Auditor will report on the level of assurance that can be taken from the work undertaken and the findings of that work. The table below provides an explanation of the various assurance statements that Members might expect to receive.

Substantial	There is a sound control framework designed to manage or mitigate risks to the achievement of defined objectives. Testing confirms that the controls are being applied consistently.
Sufficient	The control framework is basically sound but either <ul style="list-style-type: none">• there are minor gaps or weaknesses which mean that some risks are not fully managed or mitigated; or• testing provides evidence of non-compliance sufficient to weaken the effect of some controls.
Limited	There are significant weaknesses in key elements of the control framework which mean that significant risks are not managed or mitigated. Testing demonstrates significant levels of non-compliance with prescribed processes and procedures
No	The controls identified are not sufficient to manage/mitigate identified risks to the achievement of defined objectives. Testing demonstrates high levels of non-compliance with prescribed processes and procedures.

Table 2: Customer Satisfaction

At the completion of each assignment, the Auditor issues a Customer Satisfaction Questionnaire to each client with whom there was a significant engagement during the assignment. The standard CSQ asks for the client’s opinion of four key aspects of the assignment. The responses received in the year to date are set out below.

Aspects of Audit Assignments	N/A	Outstanding	Good	Satisfactory	Poor
Design of Assignment	0	1	3	0	0
Communication during Assignments	0	1	3	0	0
Quality of Reporting	0	2	1	1	0
Quality of Recommendations	0	0	3	1	0

Limitations and Responsibilities

Limitations inherent to the internal auditor's work

The consortium is undertaking a programme of work agreed by the council's senior managers and approved by the Audit & Governance Committee subject to the limitations outlined below.

Opinion

Each audit assignment undertaken addresses the control objectives agreed with the relevant, responsible managers.

There might be weaknesses in the system of internal control that the consortium are not aware of because they did not form part of the programme of work; were excluded from the scope of individual internal assignments; or were not brought to the consortium's attention. As a consequence, the Governance & Audit Committee should be aware that the audit opinion for each assignment might have differed if the scope of individual assignments was extended or other relevant matters were brought to the consortium's attention.

Internal control

Internal control systems identified during audit assignments, no matter how well designed and operated, are affected by inherent limitations. These include the possibility of poor judgement in decision making; human error; control processes being deliberately circumvented by employees and others; management overriding controls; and unforeseeable circumstances.

Future periods

The assessment of each audit area is relevant to the time that the audit was completed in. In other words, it is a snapshot of the control environment at that time. This evaluation of effectiveness may not be relevant to future periods due to the risk that:

- The design of controls may become inadequate because of changes in operating environment, law, regulatory requirements or other factors; or
- The degree of compliance with policies and procedures may deteriorate.

Responsibilities of management and internal auditors

It is management's responsibility to develop and maintain sound systems of risk management; internal control and governance; and for the prevention or detection of irregularities and fraud. Internal audit work should not be seen as a substitute for management's responsibilities for the design and operation of these systems.

The consortium endeavours to plan its work so that there is a reasonable expectation that significant control weaknesses will be detected. If weaknesses are detected additional work is undertaken to identify any consequent fraud or irregularities. However, Internal Audit procedures alone, even when carried out with due professional care, do not guarantee that fraud will be detected, and its work should not be relied upon to disclose all fraud or other irregularities that might exist.
