b. Community Safety Action Plan update 2023/24 (To Follow)

The Head of Environmental Services presented the report. The action plan had been through Cabinet and the idea was to review the content contained in Appendix A.

It was explained that partners including the police decided the priorities of the Plan and the ability to change and be flexible to accommodate resident's priorities depended on funding.

The community van was seen as a key aspect to this as it enabled engagement with all residents to ensure the communities needs/wants were met. There was an opportunity to use CACI which would provide statistics, dashboards and databases.

It was agreed this information would be presented at future meetings and furthermore as a Member Briefing. There was also a plan to work with the Wellbeing team and talk about more serious issues for future meetings.
