

Addendum to Summary of Evidence
Extraordinary Council 18th December 2018

(page 16A of pack)

The summary states that, subject to Council agreement, Policy BE2 will be amended to allocate the site at Magna Park and will then be submitted to the Inspector (along with the evidence) for his consideration.

The amended policy will contain safeguards including the appropriate criteria in the existing Policy BE2. However, because the plan would allocate a site there will be additional, more detailed criteria to ensure that any development is sustainable, including heritage, air quality, transport etc. Any revised policy will need to be considered by the Inspector and may be subject to change. The Local Plan remains in the examination process, and the Independent Inspector will need to ensure that the policy is sound, and includes the appropriate safeguards required by national policy and consider the consultation responses from the local community.
