References therein to the data exporter shall be construed as references to the Controller and references to the data importer shall be construed as references to the Processor.
20. The Controller or persons nominated by it shall be entitled to inspect and audit the Processor's premises, facilities, equipment, records, documents and electronic data relating to the processing of Personal Data, and to audit the Processor's processes, for the purpose of ensuring compliance by the Processor with its data protection obligations, including its obligations under this agreement.
